

AEP Industries, Inc

Resinite Film Division

May 7, 2008

Dear Resinite Customers:

Due to recent increases in raw material costs including additives, as well as increases in packaging and freight, we find it necessary to increase our film prices by 8%, effective with orders entered on or after June 9, 2008. This increase will apply to In-Store Meat & Produce films, In-Store and Pre-Store Specialty films, Freezer & Poultry films, Beef Operations & Bone Protection films, MAPAC film, as well as Laundry Wrap, PS-26 and HW-225.

Any orders received that exceed normal monthly usage will not be allowed and will be returned by our customer service department for modification before entry into our system. There will be no exceptions allowed to this usage limitation in order for us to preserve inventory and not sustain a major increase in our lead times.

We appreciate your understanding and thank you for your business and support. Our goal, as always, is to do our best to serve the best interests of you, our customer.

Sincerely,

A handwritten signature in black ink, appearing to read "Joe Webb".
