

AEP Industries, Inc
Resinite Film Division

May 29, 2009

Dear Resinite Customers:

Due to recent increases in raw material costs, we find it necessary to increase our film prices by 7% effective with orders entered on or after June 29, 2009. This increase will apply to In-Store Meat & Produce films, In-Store and Pre-Store Specialty films, Freezer & Poultry films, Beef Operations & Bone Protection films, MAPAC film, as well as Laundry Wrap, PS-26 and HW-225.

Any orders received that exceed normal monthly usage will not be allowed and will be returned by our customer service department for modification before entry into our system. There will be no exceptions allowed to this usage limitation in order for us to preserve inventory and not sustain a major increase in our lead times.

We appreciate your understanding and thank you for your business and support.

Sincerely,

A handwritten signature in black ink, appearing to read "Joe Webb".
