SAFETY DATA SHEET – **CreaseGo™**

1. Identification

1.1 Product Identifier: CreaseGo

1.2 Recommended Use of the Chemical and Restrictions on Use: Removes Silicone Elastomer from textiles. For industrial/institutional use only. Do not use at home. Keep out of reach of children.

1.3 Details of the Supplier of the Safety Data Sheet:
A. L. Wilson Chemical Co., PO Box 207, Kearny, NJ 07032, USA
Telephone: 201-997-3300
E-mail: SDS@ALWilson.com

1.4 Emergency Telephone Number:
Chemtrec: 800-424-9300 or 703-527-3887

2. Hazards Identification

2.1 Classification of the Substance or Mixture:
Aspiration Toxicant - Category 1

2.2 Label Elements:

Contains: Isoparaffinic Solvent [64742-47-8]

Hazard Pictograms:

Signal Word: Danger

Hazard Statements:
H304: May be fatal if swallowed and enters airways

Precautionary Statements:

Prevention:
P102: Keep out of reach of children.
P264: Wash hands thoroughly after handling.
P270: Do not eat, drink or smoke when using this product.
P280: Wear protective gloves/protective clothing/eye protection/face protection.

Response:
P301+P310+P331: IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician. Do NOT induce vomiting.

Storage:
P405: Store locked up.

Disposal Considerations:
P501: Dispose of contents/container in accordance to applicable regulations.

2.3 Other Hazards:
Ensure all equipment (including Personal Protective Equipment) is compatible with all product components.
See section 8 for exposure limits.

3. Composition/Information on Ingredients

Name	CAS No.	Concentration
Isoparaffinic Solvent	64742-47-8	100%

4. First Aid Measures

4.1 Description of Necessary First Aid Measures:

Inhalation: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If respiratory irritation, dizziness, nausea, or unconsciousness occurs, seek immediate medical assistance.

Skin Contact: Wash contact areas with soap and water. Remove contaminated clothing. Launder contaminated clothing before reuse.

Eye Contact: Flush thoroughly with water. If irritation occurs, get medical assistance.

Ingestion: Immediately call a POISON CENTER or doctor/physician. Do NOT induce vomiting.

4.2 Most Important Symptoms/Effects, both Acute and Delayed:

Ingestion: Material may be aspirated into the lungs and cause chemical pneumonitis.

4.3 Indication of Immediate Medical Attention and Special Treatment Needed:
See sections 4.1 and 4.2.

5. Fire-fighting Measures

5.1 Extinguishing Media:

Suitable Extinguishing Media: Use water fog, foam, dry chemical or Carbon Dioxide "CO_2" for fires in area.

Unsuitable Extinguishing Media: Straight streams of water.

5.2 Specific Hazards Arising from the Substance or Mixture: Smoke, fumes, incomplete combustion products, oxides of carbon.

5.3 Special Protective Action for Fire-fighters: Use appropriate Personal Protective Equipment when fighting chemical fires. Ensure all equipment (including Personal Protective Equipment) is compatible with all product components.

Additional Information: Use water spray to cool nearby containers exposed to fire.

6. Accidental Release Measures

6.1 Personal Precautions, Protective Equipment and Emergency Procedures: Cordon off spill area. Wear protective gloves/protective clothing/eye protection/face protection. Ensure all equipment (including Personal Protective Equipment) is compatible with all product components. Remove immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse.

6.2 Environmental Precautions: Avoid release to the environment. Dispose of contents/container in accordance to applicable regulations.

6.3 Methods and Materials for Containment and Cleaning Up: Neutralize spills with soda ash or lime slurry. Collect and dispose slurry waste in accordance to applicable regulations. Never neutralize with a strong alkali material.

7. Handling and Storage

7.1 Precautions for Safe Handling: Keep out of reach of children. Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. Wear protective gloves/protective clothing/eye protection/face protection. Ensure all equipment (including Personal Protective Equipment) is compatible with all product components.

7.2 Conditions for Safe Storage, Including any Incompatibles:

Storage Class: General.

Safely lock container in a cool and well ventilated place. Keep container sealed when not in use.

Packaging Material: Plastic.

Unsuitable Packaging Material: Not determined.

8. Exposure Controls / Personal Protection

8.1 Control Parameters:

Exposure Limits Values

Name	Air Concentration USA ACGIH TLV (ppm)	Air Concentration USA OSHA TWA (mg/m^3)
Isoparaffinic Solvent	152*	1200*
*Supplier information		

8.2 Exposure Controls:

Engineering Measures: Work in a well ventilated area or under a ventilation hood.

8.3 Individual Protection Measures, such as Personal Protective Equipment:

Ensure all equipment (including Personal Protective Equipment) is compatible with all product components.

Eye Protection: Wear closed safety glasses or chemical splash goggles.

Skin Protection: Wear protective clothing.

Respiratory Protection: None needed when used with adequate ventilation.

Hand Protection: Wear protective gloves. Gloves must be inspected prior to use. Replace if worn or damaged. Do not reuse.

Hygiene Measures: Wash thoroughly after handling. Do not smoke, eat or drink in work area.

9. Physical and Chemical Properties

Appearance: Liquid.

Odor: Odorless.

Odor Threshold: Not Determined.

pH: Not Applicable.

Melting Point/Freezing Point (°C): Not Applicable.

Initial Boiling Point/Boiling Point Range (°C): 224°C (435°F) - 254°C (489°F).

Flash Point (°C): 95°C (203°F) [ASTM D-93].

Evaporation Rate: Not Determined.

Flammability (solid, gas): Not Applicable.

Upper/Lower Flammability or Explosive Limits: LEL: 0.6; UEL: 4.9.

Vapor Pressure: 0.004 kPa (0.03 mm Hg) at 20 °C.

Vapor Density: 6.5 at 101 kPa Calculated. (Air = 1).

Relative Density (Water =1): 0.79 at 15.6°C.

Solubility: Insoluble in water.

Partition Coefficient: n-Octanol/Water: Not Determined.

Auto-ignition Temperature: 215°C (419°F).

Viscosity: 2.71 cSt (2.71 mm^2/sec) at 40 °C; 3.77 cSt (3.77 mm^2/sec) at 25°C.

Explosive Properties: Not Applicable.

Oxidizing Properties: Not Applicable.

10. Stability and Reactivity

10.1 Reactivity: See sub sections below.

10.2 Chemical Stability: Stable if used according to specifications.

10.3 Possibility of Hazardous Reactions: Hazardous polymerization will not occur.

10.4 Conditions to Avoid: Avoid heat, sparks, open flames and other ignition sources.

10.5 Incompatible Materials: Strong oxidizers.

10.6 Hazardous Decomposition Products: Material does not decompose at ambient temperatures.

11. Toxicological Information

Acute Toxicity: Data not available for mixture

Toxicological Information on Ingredients:		**Acute Toxicity**		
Name	CAS No.	Oral LD50 (Rat - mg/Kg)	Inhalation LC50 (Rat – ppm)	Dermal LD50 (Rabbit – mg/Kg)
Isoparaffinic Solvent	64742-47-8	>5000	>5000	>5000

Skin Corrosion/Irritation: May dry skin leading to dermatitis.

Serious Eye Damage/Eye Irritation: May cause mild eye irritation.

Respiratory or Skin Sensitization: Not expected.

Germ Cell Mutagenicity: Not expected.

Carcinogenicity: Not listed by NTP, IARC, OSHA, or ACGIH as a carcinogen.

Reproductive Toxicity: Not expected.

Specific Target Organ Toxicity – Single Exposure: Not expected to cause organ damage on single exposure.

Specific Target Organ Toxicity – Repeated Exposure: Not expected to cause organ damage on repeated exposure.

Aspiration Hazard: May be fatal if swallowed and enters airways.

Inhalation: Vapor concentrations above recommended exposure levels are irritating to the eyes and the respiratory tract, may cause headaches and dizziness, are anesthetic and may have other central nervous system effects.

Subchronic/Chronic Toxicity: Not determined.

12. Ecological Information

12.1 Ecotoxicity:

Aquatic Toxicity: Not expected to be toxic to aquatic life.

12.2 Persistence and Degradability: Inherently biodegradable.

12.3 Bioaccumulative Potential: Not determined.

12.4 Mobility in Soil: Not determined.

12.5 Results of PBT and vPvB Assessment: This product does not contain PBT or vPvB substances.

12.6 Other Adverse Effects: No data available.

13. Disposal Considerations

13.1 Disposal Methods:

Product (Any Residual Waste/Unused Product): Dispose of any residual product waste or unused product in accordance to applicable regulations. Avoid release to the environment.

Packaging (White Plastic): After use, close empty bottle, and dispose of in accordance to applicable regulations.

14. Transport Information

14.1 UN-Number: Not Regulated.

14.2 UN Proper Shipping Name: Not Regulated.

14.3 Transport hazard class(es): Not Regulated.

14.4 Packing group: Not Regulated.

14.5 Environmental Hazard(s): Marine Pollutant: No.

14.6 Special Precaution to User: See section 7.

14.7 Transport in Bulk According to Annex II of MARPOL 73/78 and the IBC Code: Not Applicable.

15. Regulatory Information

15.1 Safety Health and Environmental Regulations/Legislation Specific for the Substance or Mixture:

U.S. Regulations:
Inventory Status: All components are on TSCA.
U.S. Superfund Amendments and Reauthorization Act (SARA) Title III:
SARA (311/312) Hazard Categories: Acute/Delayed
SARA 313: This product does not contain any SARA 313 Toxic Release Chemicals.

16. Further Information

Abbreviations and Acronyms:
ACGIH = American Conference of Governmental Industrial Hygienists.
C = Concentration (weight percent).
DOT = Department of Transportation (United States).
IMDG = International Maritime Dangerous Goods Code.
IARC = International Agency for Research on Cancer.
OSHA = Occupational Safety & Health Administration.
PBT = Persistent, Bioaccumulative and Toxic Substances.
ppm = parts per million.
OELV = Occupational Exposure Limits Values.
TLV = Threshold Limit Values.
TSCA = Toxic Substance Control Act.
TWA = Time-Weighted Average.
vPvB = very Persistent and very Bioaccumulative Substances.

The information contained herein is accurate to the best of our knowledge. A. L. Wilson Chemical Company makes no warranty of any kind, express or implied, concerning the safe use of this material in your process or in combination with other substances.
