Quality Fabricators has received several notices of price increases from our various suppliers of raw materials and components. As their reasoning, they site rising costs of raw materials, increased energy costs, and transportation costs. Quality Fabricators finds it necessary to pass on these increases to our customers. This will be our first price change since early 2005.

The price increase will be effective April 1, 2008. Please find attached a copy of the new prices that will take effect on April 1, 2008. We appreciate your understanding and continued business. Please feel free to contact us if you have any questions.

Sincerely,

Bill Boyle, Bill Schnitzer, and Phil Dockery

Quality Fabricators
