Re: DF-2000 Fluid Price Adjustment Effective August 1, 2008

ExxonMobil Chemical have announced a further increase in the price of DF-2000 Fluid as values for crude oil continue to reach record levels. This dramatic increase in crude oil pricing has had a significant impact on all petrochemical costs including the feedstocks used to make DF 2000 Fluid.

We greatly appreciate your understanding and continued support during this difficult time. Should you have questions, or require further information, we would be pleased to hear from you. Thank you for your business.

A revised Confidential Distributor Price Schedule is attached.

All other terms and conditions remain unchanged.

Sincerely,

R.R. Street & Co. Inc.
