

AEP Industries, Inc
Resinite Film Division

January 20, 2012

Dear Valued Resinite Customers:

As a result of recent increases in resin and raw material costs, we find it necessary to increase the prices on all AEP Resinite PVC food packaging films by 5% effective on all orders received after February 17, 2012.

All orders received for normal quantities prior to February 20, 2012 will be invoiced at the pre-increase prices. Orders placed on February 20, 2012 or later, will be subjected to a 5% price increase on all Resinite PVC food packaging film.

Any orders exceeding normal monthly quantities will not be allowed and will be returned by our customer service department for modification before entry into our system. There will be no exceptions allowed to this usage limitation in order for us to preserve inventory and not sustain a major increase in or lead times.

We appreciate your understanding and thank you for your business and support during this time of raw material increases.

Sincerely,

A handwritten signature in black ink, appearing to read "Steve Firmery".
