

AEP Industries, Inc
Resinite Film Division

March 09, 2009

Dear Resinite Customers:

We have already sustained a resin cost increase for the month of February and are now informed of another in March as well as April. These increases require that we cover our increased cost of production with a 10% price increase which will become effective April 1, 2009. This increase will apply to In-Store Meat & Produce films, In-Store and Pre-Store Specialty films, Freezer & Poultry films, Beef Operations & Bone Protection films, MAPAC film, as well as Laundry Wrap, PS-26 and HW-225.

We will accept orders calling for immediate delivery through the end of business March 31, 2009 at the old price. The order must be for normal order quantities and not exceeding average monthly usage. All orders entered on April 1st or after will be at the increased price. If you have further questions, please contact your local Resinite representative. We appreciate your understanding and thank you for your business and support.

Sincerely,

A handwritten signature in cursive script that reads "Joe Webb".
