

 **Epsilon Plastics, Inc.**
of Sigma Plastics Group

June 19, 2009

Dear Valued Customer,

It appears that the polyethylene suppliers have been successful in implementing the additional \$.03/lb resin increase which was announced effective June 1st, 2009. This is in addition to the \$.03/lb increase that was implemented May 1, 2009. The continued weakening of the U.S. dollar, strong export demand, and increasing energy (oil) prices continue to support this escalation. In addition, all resin suppliers have announced a new increase of \$.08/lb effective July 1, 2009. If this third increase is implemented, you should expect an additional price increase on all Epsilon Plastics products.

Based on the June 1, 2009 resin price increase, Epsilon Plastics will increase prices by 5% on all orders received on or after July 13, 2009.

Orders placed prior to this increase will be limited to a maximum of one month of your normal purchase levels. All orders must be for prompt delivery within our current lead times. Pricing for orders accepted is based upon available resin supply and Epsilon Plastics reserves the right to accept or decline all orders for any reason.

Please be assured that we will continue to support our loyal customers and work to minimize the impact that these increases have on your business. **In the event that these increases are reduced, delayed or canceled, we will adjust accordingly.** Thank you for your continued support and business.

Sincerely,

Robert M. Levine
Vice President Sales
