RE: Solvents and Feedstocks Price Announcement

Dear Ken:

Effective immediately, or as permissible by contract, PPG is increasing all off-schedule and list prices on all grades of **Perchloroethylene** and **Trichloroethylene**.

This price increase is necessitated by continued tightening of the supply/demand balance.

List prices are shown on the attached and reflect the above increases.

All other terms and conditions of sale remain unchanged.

If you have any questions regarding this price change, please contact your local PPG sales representative. PPG appreciates the opportunity to supply your feedstock and solvent requirements and will strive to earn your business everyday.

Sincerely,

A handwritten signature in cursive script that reads "Howard Wright".

Howard Wright
Regional Sales Director, Eastern Area
