**Re: Qualitex Price Increase on Sun Glow Nomex Grid Plates
EFFECTIVE DATE: October 1, 2008**

Dear Valued Customer:

As we are all aware, there have been significant increases in the cost of energy, transportation of goods, petroleum based products and other raw materials, along with other costs of doing business. Qualitex has always been identified with the highest quality in products manufactured and supplied to our industry, and we have chosen to maintain that quality despite the multiple price increases in goods and services that we have received since our last price in November of 2005. In particular, the cost of producing our Sun Glow Nomex Grid Plates have increased dramatically in the past six (6) months. As a result, we have no alternative but to institute a 15% price increase in our Grid Plate Line. The Grid Plate price increase will be effective October 1, 2008.

Any orders placed and shipped prior to October 1, 2008 will be billed at the current pricing. Orders shipped after October 1, 2008 will be billed at the 15% Increase. We will do our best to ship all orders that are in house prior to October 1, 2008, however we cannot guarantee shipment by that date.

We trust that you understand our position, and we look forward to continuing our business relationship with you.

Very truly yours,

Ava B. Campagna
President
